

Wills & Probate Excellence

Now an established part of the British Wills and Probate Awards, the Wills and Probate Excellence Award is not open to general submission.

Instead it recognises the very best entry in the view of the judging panel; demonstrating excellence across the whole range of criteria outlined in the British Wills and Probate Awards.

The winner will be the top scorer across the categories open to Willwriting and Solicitor Firms; an individual or firm who is delivering technical excellence, an innovative approach to client service, and evidencing the fruits of their labours through client satisfaction.

The award embodies everything that Today's Wills and Probate stands for as a news publication and everything The British Wills and Probate Awards was introduced to recognise; independence, integrity and a recognition of the incredible diversity of the profession.
